PROFESSIONAL OVERVIEW

Front-End Developer with 1 year of experience building scalable, responsive, and user-friendly web applications using React, TypeScript, and JavaScript. Proficient in modern UI/UX implementation, state management (Redux, Context API), and REST API integration. Skilled in writing clean, maintainable code and delivering high-performing front-end solutions. Seeking an opportunity to contribute technical expertise and enhance user experience in a growth-focused organization.

PROJECTS

Company website

Project Link: [1bi0 Technology LLP](#)
1bi0 Technology LLP

- **1bi0.ai Project:** Developed the complete front-end for 1bi0.ai, an AI-driven application, including responsive, user-friendly interfaces using React, CSS, and Typescript.
- **User-Centered Design:** Focused on creating intuitive and engaging user experiences that enhance interaction with the AI platform, ensuring accessibility and usability.
- **Responsive & Mobile-Optimized Layouts:** Designed and implemented layouts that adaptability seamlessly across devices, providing a consistent experience on desktop and mobile.
- **Reusable Component Development:** Built and optimized reusable components, improving code maintainability and accelerating development for future features.

Ilampiraihearing solutions

Project Link: <https://ilampiraihearingsolutions.com/>

- **Ilampirai Hearing Solution Website:** Developed a responsive, user-centered website for Ilampirai Hearing Solution using HTML, CSS, and PHP.
- **PHP Integration:** Implement PHP for dynamic content management, enabling easy updates and server-side functionalities
- **Responsive & Mobile-Optimized Design:** Ensured that all pages adapt seamlessly across devices to provide a consistent experience on desktop, tablet, and mobile
